Assignment 02

Question 1 [CO1] : 10 Points

Suppose that each of the following Update operations (a-e) is applied directly to the database state shown in Figure A2_1. **Consider each operation independent of each other. Each operation will be performed in the same state of Figure A2_1.** Discuss all constraints violated by each operation (check Figure A2_2 for Referential integrity constraints on the database of Figure A2_1), if any, and the different ways of enforcing these constraints.
